It's really important that I access this discovery. Any other passwords I can try?

Thanks

Good morning Ms. Mercado:

I got this BluRay to work (had to go through a few BluRay disc drives). Now, I'm getting a message that the ZIP file is password protected ... how do I access its contents?

Thanks

Hi Rachel:

The Blu-ray still isn't working. Can I drop off an external drive?

Thanks

Same here. 20 Hours no power; five days no water. Glad I still have all my backpacking gear.

Contact Rachel at the USAO and she will let you know when you can get discovery at the front window of the office.

I will offer him a 5 – 40 year count with cooperation. Possibility of 5K. He will have a lot of relevant conduct to work off.

Just saw the Pretrial Services report recommending conditions of release. Bad idea for any number of reasons. Let me know if you intend to pursue release. I will then be in a position of having the case agent testify to all of the relevant conduct. Probation gets all of that when they prepare the Pretrial Services Report. Sort of ties everyone's hands.

Let me know. Mark

Mark:

WOW, well that was a good way to burn a week. As you can imagine absolutely nothing happened work-wise as electricity was out, and I went into survival mode slipsiding around Bouldin Creek / Zilker between mine and my girlfriend's place as we traded off who didn't and did have electricity.

So, when would be a good time to grab that discovery? Also, I am sure Mr. Patton will be open to entering into a plea agreement in this case. I anticipate that if we remove the 10 year minimum and find him somewhere in the range of 7 or so years it would be acceptable.

Now, in regard to state cases that were pending at the time of federal indictment --- is it the Government's position that the conduct was unrelated to the alleged ongoing conspiracy? The reason I ask is to see if any credit he earned on those cases could be potentially honored by the sentencing court.

Thanks.

Good afternoon John, Doing our best to stay warm.

Will have discovery in the front window as soon as we get any staff to report to the office. I am sure that the office will be closed Mon and Tu. This was a T III investigation. This will most likely take you awhile. Brief summary follows:

Federal and State Task Force Agents have been investigating the drug trafficking organization (DTO) led by Maria Teresa Benitez-Ugarte in Austin, Texas, since April 2017. During the investigation, Agents identified Cory PATTON as a large-scale methamphetamine distributor in the Austin, Texas area. According to multiple confidential sources, court authorized intercepts of target telephones, physical surveillance, and drug seizures, PATTON receives kilograms of methamphetamine and multi-ounce quantities of heroin from multiple sources to include Maria Teresa BENITEZ-Ugarte and Rogelio ARIAS-Cruz.

Agents have conducted previous surveillance operations of Benitez-Ugarte that have resulted in the seizure of large amounts of methamphetamine from members of this organization, including Cory PATTON.

Based on this and additional information, Agents obtained a series of T III wire and electronic interception orders that authorized the interception of communications between November 27, 2018 and October 5, 2018, TT 1-5. On July 20, 2018 an order that authorized the interception of wire and electronic communications from 737-207-0636, a telephone number subscribed to and utilized by Cory PATTON, (Target Telephone #3) was signed.

PATTON was intercepted on 356 pertinent calls on TIII of BENITEZ-Ugarte (TT#1); on 465 pertinent calls on TIII of BENITEZ-Ugarte (TT#2); and and equal # of calls on TT#3 (07-27-18 to 10-06-18). He is responsible for kilo distributions of meth and heroin. Dropped phone after he was arrested on unrelated case in WillCo.

Give me a call after you have a chance to review discovery next week. Mark

Mark:

Hope you're well. It's been a weird 12 months. Let's chat about Mr. Patton's case, I'd like to get discovery ASAP. Curious as to what the relevant conduct ya'll will be claiming is.

Thanks - please let me know when you're free next week.

-- Best.
